FORGING AHEAD

Our Village Councillors receive very little credit for the service they render during their term of office, but we feel that this is an opportune time to congratulate our Council for the aggressive programme they have planned again this year for the general improvement of the village. With two more wooden sidewalks approaching the business section being taken up and replaced with cement is another step to be commended upon. Apart from this two cement street crossings will be built, one at the end of Limit Avenue off Railway Street and the other on Ross Street near the Masonic Hall. Already two steel culverts have been purchased and set in place, the one off Railway Street, leading on to Smith Street, and the other on Hammond Street.

Since purchasing the Road Grader the Council have kept it busy improving the streets, which has already given the Village a smart appearance and should give the taxpayer the feeling that there is no other village of the same size equal to his own home town.

School Board

Makes Presentation

At a meeting of the School Board held in the Secretary's office on Wednesday evening of last week, the Chairman expressed their regret at losing the valued services of Mrs. A. Emery, presenting her with a lovely pen and pencil set as a memento of their pleasant associations during her work in the Crossfield school. Mrs. Emery thanked the Board in a few well chosen words, expressing her appreciation of the splendid co-operation she had received from them in her eight years as teacher here.

A picture show was attended in Calgary in the afternoon and swimming, boating and games provided plenty of entertainment at the park. All report having had a grand time.

Heywood-McTavish

A quiet wedding of local interest was a solemnized in Calgary last Thursday, June 27, when Sarah Wilda McTavish, daughter of Mr. and Mrs. J. R. McTavish, became the bride of Wayne Arthur Heywood, son of Mr. and Mrs. A. Heywood. The ceremony was performed by Dr. Warwick F. Kello, way, assisted by Rev. Dr. B. H. McKinnon.

The bride wore a frock of heavenly blue crepe, with white accessories and a corsage of roses. She was unattended. After a short honeymoon in the mountains the happy couple have returned to Crossfield where they will reside.

"Business as Usual". Your dollars make splendid ammunition on the home front these days — fall in line with your neighbor and shoot your wad in your community, where you get the benefit of the circulation.

Your five or ten dollars spent in the community will continue to circulate, paying off a number of accounts that otherwise would not be paid. So you see the value your money has when it is placed in among your neighbors. Your money remember, does double duty on the home front. Money sent away is gone and out of circulation as far as the local business places are concerned.

This is a time for the closest co-operation, and it is to your interest that only the best results be obtained when you are making the usual purchases for yourself or family.

Democracy or Despotism!

The War Savings Committee for Alberta has adopted a slogan: "Democracy or Despotism - Which?"

The seventy-third birthday of our Dominion is with us and we begin to realize that after so brief a national life we are faced with the alternative of such a thought.

Democracy or despotism! Even yet they sound to us more like words than realities. Only in recent days have we been faced with the question: "Which is to be our destiny?" Democracy is a system of life which we are trying to build up. Man has not yet made his house perfect and democracy is a succession of experiments in liberty of thought and of action. It is for this somewhat faulty but noble conception that we have to fight.

Despotism is that which has cast its black shadow over Europe, and seeks to engulf the world in its folds. Opposed to it today stands the British Empire. The heart of that Empire is facing dreadful days with courage and fortitude. We in the outer reaches have the high privilege of doing something to help.

Bond issues and Government loans are all very well, but deep spirit of our people can be shown in buying War Savings Certificates and Stamps. With every purchase, however small, will go a heart-beat for the Empire and for Christianity. The accumulation of this buying is an accumulation of love and earnest effort on behalf of our country.

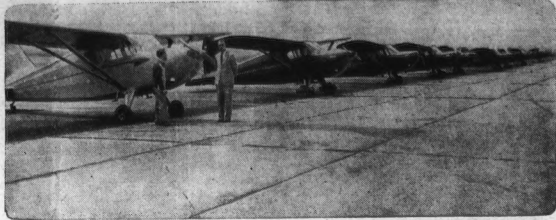

We who may not go to war can do nothing that will count more than lending our small and intimate savings to our country. We can do nothing that will register more deeply in behalf of ultimate success.

X-RAY MEANS SAVINGS

According to Col. W. A. Jones, consultant radiologist, R.C.A.M.C. X-ray examinations for all recruits in the Canadian Army has already occasioned the hospitalization of 240 cases of tuberculosis and has brought to light many more needing medical care. Speaking of tuberculosis alone, which he called one of the most dangerous "agents" in the army, Col. Jones estimated that this care has meant a potential saving of \$25,000,000 for the first 100,000 troops enlisted since the start of the war.

Sport Planes Go to War

Fifteen light Stinson monoplanes all purchased less than six months ago by U. S. citizens for private use, have been bought by the Allies and are shown here lined up at Roosevelt Field, N.Y., in readiness to be flown to an East Coast port for shipment to France. Two American pilots stand by. The machines are to be used for observation work.

The World of Wheat

By H. G. L. Strange

The Canadian Seed Growers' Association has just held its thirty sixth annual convention. Seed grower delegates, representing the 3,000 members, came from every province in Canada, and for three days discussed ways and means of making quantities of high quality true-to-variety seeds available to farmers, at reasonable prices, so that Canadian field crops could be improved.

The beginnings of the Association date from 1899, and spring from the vision of the late Dr. James W. Robertson, then Dominion Commissioner of Agriculture—a great man if ever there was one. In later years, looking back on the work that had been done by seed growers, Dr. Robertson remarked: "Many thousands more men now recognize that seed does not merely mean grain but that seed means a contained life. It means the quality and power of the contained life, which gives the plant, rising from the seed, commensurate power to overcome obstacles garnering from air, sun and soil, strength and beauty and wealth for us. This is seed grain—grain with the capacity to perform that function for us. The man who has studied seed, and has obtained an insight into the meanings of life, will behave in all relationships in a wiser and nobler way."

Following factors have tended to raise price:—A serious shortage of food is reported in Belgium—Wheat seeding in the Argentine is being retarded by excessive rains—Extensive grasshopper damage in southwest Saskatchewan—Searle Grain moisture report No. 10 shows a decline of 2 percent for week ending June 26. Following factors have tended to lower price:—Harvesting has commenced in parts of U. S. winter wheat belt—Spring grains in the Balkans are now making satisfactory progress—Harvesting of wheat in Italy has begun—A harvest of 4½ billion bushels of all grains (wheat, oats, barley, corn and rye) is estimated in the U. S. A. for 1940.

"Every time I kiss you it makes me a better man."
"Well, you don't have to try to get to heaven all in one night."

"Where did you first meet your wife?"
"I didn't meet her—she overtook me."

Border Clashes Reported

This map shows the border along the disputed Bessarabian frontier behind which Soviet troops and airplanes are reported to be concentrating. There have been conflicting reports of fighting between Rumanian and Russian troops and diplomatic circles in Washington have heard that in a deal with the Nazis, Russia will occupy Bessarabia. The report added that Germany is urging the recently reconquered Rumania to concede the territory without fighting.

TO CONSERVE FISH OILS

Recognizing that fish oils with a vitamin content, when fortified with vitamins A and D, can be a good substitute for Cod Liver Oil, the Government has moved to restrict export from Canada of fish livers, fish oils, fish liver oils, and fish visceral oils. Export licenses will be withheld unless approved by the Wartime Prices and Trade Board.

Work Without Pay

Not a cent of commission is being paid to the postmasters, banks, financial institutions and commercial organizations which are selling war savings certificates and war savings stamps to the public. Nor is there any public expense involved in the work of citizens who are organizing and sustaining these projects both at headquarters in Ottawa and others throughout the Dominion.

In The Same Class

The captain saw a young soldier trying to cook his breakfast over a badly made fire. He showed him how to make a quick-cooking fire and said: "Look at the time you are wasting. When I was in the Himalayas I often had to hunt my breakfast. I used to go about two miles into the jungle, shoot my food, skin or pluck it, then cook and eat it and return to camp under half an hour." Then he wisely added "Of course, you will have heard of the Himalayas!"

"Yes sir," replied the soldier "and also of Ananias and George Washington."

Father was standing at the edge of a cliff admiring the sea below, the sandwiches clutched in his hand. His son approached him and tugged his coat.

"Mother says it isn't safe here," said the boy. "And you're either to come away or else give me the sandwiches!"

Taking No Chances

A British soldier brought back a German prisoner by hauling him with a rope around his body.

Soldier: "Well, sir, all the shell holes we passed were full of water and I was scared he would try to scuttle himself."
